# SimUnity.App

Skysoft
the solution provider

SimUnity.**App** is SimUnity to go. With any iPhone® / iPad® or Google Android® mobile you feel the heartbeat of your company – wherever you are – worldwide* and at any time.

SimUnity.**App** provides a quick overview of your tasks and pending issues. One tap more and you see the task details including all comments. Further you are able to get details about the utilization of your resources.

Likewise at SimUnity.**Dashboard** you see the visualization of the performance indicators which helps your organization to measure workflows towards your organizational goals.

Directly access your session schedule online via SimUnity.**App**.

Each feature of SimUnity.**App** can be granted by access right.
