

SimUnity.App is SimUnity to go. With any iPhone® / iPad® or Google Android® mobile you feel the heartbeat of your company — wherever you are — worldwide* and at any time.

SimUnity.App provides a quick overview of your tasks and pending issues. One tap more and you see the task details including all comments. Further you are able to get details about the utilization of your resources.

Likewise at **SimUnity.Dashboard** you see the visualization of the performance indicators which helps your organization to measure workflows towards your organizational goals.

Directly access the session schedule online via **SimUnity.App**.

Each feature of **SimUnity.App** can be granted by access right.

* Requires a working internet connection through WLAN or mobile data network.

Never it was never so easy to stay in touch with of your business!
