

SimUnity.Schedule is your flexible, powerful, yet cost effective Resource Scheduling System. View free and busy time at a glance and schedule bookings for single or multiple resources – quickly and easily. Review and change session details at one click.

Classify your resources into skill sets or other groupings to make the selection of the right resource even easier.

Review your real-time session data in reference to your scheduled bookings and see changes at first view. Manage your customer and trainee records and define questions and answers for advanced session information.

Use *IntelliSchedule* to minimize your resource changeover time in environments with multiple resource configurations.

- SimUnity.Server/Admin
- SimUnity.Manager
- SimUnity.Schedule**
- SimUnity.Dashboard
- SimUnity.Customer
- SimUnity.Web
- SimUnity.Viewer
- SimUnity.Info
- SimUnity.CBT
- SimUnity.App
- SimUnity.Connector

Technical Requirements

Hardware	
Color depth	min. 8 Bit
Display	min. 1024x768
