

SimUnity.Viewer is your Resource Schedule Information System.

Two application modes are available:

The **Kiosk mode** is used at the entrance or central information point of your building to greet your customers and provide their session schedule information – available 24/7.

No need to contact your maintenance or customer service. All user inputs are disabled and the information depth is customizable. **SimUnity.Viewer** runs on a simple terminal.

The **Workplace mode** provides a quick overview of the daily schedule and let you customize your view to your information needs. Also detailed session information are available.

- SimUnity.Server/Admin
- SimUnity.Manager
- SimUnity.Schedule
- SimUnity.Dashboard
- SimUnity.Customer
- SimUnity.Web
- SimUnity.Viewer**
- SimUnity.Info
- SimUnity.CBT
- SimUnity.App
- SimUnity.Connector
